Our *Tribute Program* focuses on the continual nurturing of mind, body and spirit that truly enhances each life.

Life Engagement

At Quail Park, we know that connection to the local Visalia Community is paramount to filling our residents' days with purpose built programs, which incorporate familiar and comforting activities of daily living. Through our Tribute Program, we strive to craft and implement an activity plan to meet each of our residents' individual and unique needs, such as community give back programs, exercise and health, cooking classes, and just being a part of purpose in the Visalia Community. Our goal is to support each resident to be the very best they can be in their journey, and live the fullest spectrum of life, whatever their stage of dementia.

Our Team at Quail Park receives extensive and ongoing training to ensure best practices in care, communication, dining and life engagement for residents living with dementia. All partners at the community are deeply committed in supporting our residents, their family members and those who love them.
